NO MORE "YANKING" THE TIE

The latest machine for finishing the popular turn-down collar is now in operation in our plant.

This is the first machine of its kind in use in Toronto

The outer portion of a collar is separated from the band so that a space is moulded between **making a natural and ample tie space.**

This machine runs out a rounded and perfectly smooth edge, and adds to the service of your collars.

Seeing is believing—just see some of our collars.

FURNISHED UPON REQUEST

HOW TO PROCURE CAPITAL

The Reason

The first reason for united effort was prompted by the desire for greater results, greater production, greater business.

The desire for this increased business is often prohibited by lack of capital as increased production demands more capital. With sufficient capital comes the ability to take advantage of every opportunity of earning profit, economy in manufacture and purchase of materials. Hence the reason for the incorporation of our largest and most successful business—united effort of capital and skill.

The Method

You can increase your business and your capital by incorporating your business into a limited company, giving you greater stability and prestige. Your liability would be limited to the actual sum invested in the business, additional capital might be procured when necessary from bank or individual.

The Advantage

The advantages of incorporation are many. It gives you the ability to do more business, better business and at greater profit.

I would be glad to discuss your requirements with you any time.
